

Ne-Yo, In the way

Thought I get to see your face again
But my flight got canceled, wouldn't stop raining
So two days, three flights, later I touchdown
But there was trouble with your family and now your outta town
And I don't like it
No this ain't cool
Feeling like something
Just don't want me near you
The world keeps getting in the way
Trying to get to you
But it seems like everyday is something new
Baby the world keeps getting in the way
With you is where I wanna be
But it just wont let me
'Cause it keeps getting in the way
Keeps getting in the way (oh)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way
Said it keeps getting in the way
And now we're in the same state
But I'll be in the studio working extra late (5 in the morning)
And finally I get to leave (I'm coming home to you)
But by the time I get there you're already fast asleep
And I don't like it
No this ain't cool
Feeling like something
Just don't want me near you
The world keeps getting in the way
Trying to get to you
But it seems like everyday is something new
Baby the world keeps getting in the way
With you is where I wanna be
But it just wont let me
'Cause it keeps getting in the way
Keeps getting in the way (oh)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way (oh)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way (woah)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way
Said it keeps getting in the way (oh)
And I don't like it
No this ain't cool
Feeling like there's something
Just don't want me near you, you, you
Baby the world keeps getting in the way
Trying to get to you
But it seems like everyday is something new
Baby the world keeps getting in the way
With you is where I wanna be
But it just wont let me
Said it keeps getting in the way
Keeps getting in the way (oh oh oh oh babe)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way (oh oh oh oh)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way (the way, the way, the way)
Said it keeps getting in the way (the way, the way, the way, the way, the way)
Keeps getting in the way (woah)
Said it keeps getting in the way (keeps getting in the way)
Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way
