

# Neal McCoy, Wink

I woke up this morning  
My head fell dense  
I splashed it with water tryin' to make it make sense  
I stumbled to the kitchen  
She was standing at the sink  
All she had to do was just gimme that wink

(Chorus)  
Slam-bam I'm feelin' alright  
Troubles take a hike in the blink of an eye  
Don't need to psychoanalyze or have a stiff drink  
All she's gotta do is just give me that wink

Well it's her way of sayin' she's on my side  
An unspoken message that works everytime  
When my brain starts smokin'  
And I can't even think  
All she's gotta do is just give me that wink

(Repeat Chorus)

In this complicated world  
It may sound absurd  
But simple little things are the miracle cure  
Push to the limit  
I'm standin' at the brink  
All she's gotta do is just give me that wink

(Repeat Chorus 2x)
