

# Neal Morse, Lifeline

Maker of the sun and shade  
The plans were made before the morning  
At a time when no one knew  
He left a clue and sent us a lifeline... It's fine

Then along came a man like me  
With everything laid out before him  
Then it all came crashing down  
A man can drown from thoughts in his own mind

Like something deep inside my soul  
Was sinking fast; I was the hole  
When I was almost out of time

He gave me a lifeline right down to my soul  
He gave me a lifeline that I might grab a hold

Suffering was nothing new  
My days were few without a let down  
Something down there deep inside  
Dissatisfied with everything I'd find

And in the clouds he sent the sky  
Into a desert running dry  
He sent a river full of life

He gave me a lifeline right down to my soul  
He gave me a lifeline that I might grab a hold  
He gave me a lifeline when I was cast away  
He gave me a lifeline right up from the grave

He sent me a lifeline when I was on my own  
Far from the borders he came brought me home  
He sent me a lifeline when I was down the hole  
My world was like an ocean raging out of control

Send me a lifeline  
Send me a lifeline

Once upon another time  
He made my mind a different color  
Painted on my destiny away between  
The black and lonely sky... Let's fly!

He gave me a lifeline right down to my soul  
He gave me a lifeline that I might grab a hold  
He gave me a lifeline when I was cast away  
He gave me a lifeline and I'm alive today

He gave me a lifeline  
He gave me a lifeline and I'm alive today  
He gave me a lifeline  
Jesus is my lifeline
