

NEEDTOBREATHE, Knew It All

Dont look back now,
we thought we had it won.
And all that weve left,
Is the smoking of a gun,
Fear is not the only device,
That loneliness could leave us to fight.

(Chorus)
Cause youre gone (gone, gone)
I told myself that you could be the the one,
But youre gone (gone, gone)
And I knew it all along.

My heart was kept,
Far from the place you left,
My eyes have seen,
The favor move from you to me,
Fear is not the only device,
That loneliness could leave us to fight.

(Chorus)
Cause youre gone (gone, gone)
I told myself you could be the one,
But youre gone (gone, gone)
And I knew it all...,
Ooooooh, Its alright, its alright (x4)
Cause youre gone (gone, gone)
I told myself you could be the one,
But youre gone (gone, gone)
And I knew it all along.
