

Negative, Lust N' Needs

Come
Come and taste the blade
Cold and steel
With a grin upon your face
Bring it all down here
All down here
Let's make it real

Love on streets, emotions for sale
Just take whatever comes on your way
I swear
You won't regret
Get in, release your lust and needs
Just for one night, down on your knees
Play dead
Enjoy and forget

Girl
Forget the world outside
That is made of rules
Be my queen of desire
Live for your sin
Let me be your sin
Take me under your skin

Love on streets, emotions for sale
Just take whatever comes on your way
I swear
You won't regret
Get in, release your lust and needs
Just for one night, down on your knees
Play dead
Enjoy and forget

Love on streets, emotions for sale
Just take whatever comes on your way
I swear
You won't regret
Get in, release your lust and needs
Just for one night, down on your knees
Play dead
Enjoy and forget

My queen of desire
Come light my fire
And scream
