

Negative, Motherfucker (Just Like You)

Since birth you wandered on the streets
Doing drugs to kill bad self-esteem
Never looking out for compromise
Now you're gone in hell and I realize

That I've seen
Motherfuckers, motherfuckers just like you
Who don't know, who don't know what they should do
With their lives
Motherfuckers, motherfuckers just like you

Take a look outside, it all could be yours
Unsophisticated, demanding force
Am I wrong? I warned you for so long
Always waiting for the next storm to come

That I've seen
Motherfuckers, motherfuckers just like you
Who don't know, who don't know what they should do
With their lives
Motherfuckers, motherfuckers just like you
Who don't know, who don't know what they should do

Just get a life, man

Just get a life, man
Just get a life, man
Just get a life, man
You better do it fast
Just get a life, man
Now get out of your trap

Just get a life, man
You better do it fast
Just get a life, man
Now get out of your trap

And I've seen
Motherfuckers, motherfuckers just like you
Who don't know, who don't know what they should do
With their lives
Motherfuckers, motherfuckers just like you
Who don't know, who don't know what they should do
With their lives (motherfucker)
Just get a life, man (motherfucker)
You better do it fast (motherfucker)
Just get a life, man (motherfucker)
