

Negative, Planet Of The Sun

On and on
I was looking for freedom
Less and more
I found it by you
This darkened sky
Of our heavenly kingdom
The thing in common is
There's not so much left to say

Are you ready or not?
Ready for the truth
Sick and tired of this nonsense
I'm frustrated by you

The signs of silence
Are getting louder
Breaking the bond
We've protected so long
I don't see reason to ponder
With this any longer
There's no turning back
Just one way to fall
Fall apart

Are you ready or not?
Ready for the truth
Sick and tired of this nonsense
I'm frustrated by you

In a life that we live in
For the love we believed in
This might be the day we die
So we can be born again

And life should be easy
When there's someone to hold on
That's what they told me
That's what I thought

Are you ready or not?
Ready for the truth
Sick and tired of this nonsense
I'm frustrated by you

In a life that we live in
For the love we believed in
This might be the day we die
So we can be born again

On and on
Still looking for freedom

Planet of the sun
