

Negative, Stop F*ckin' Around

Remains of sympathy
That's kind of what you left me with
Our divided destinies
Nailed to be lost
Beauty marks of history
Easily will repeat itself
I've nothing to prove to you
This time I'll take and make my move

There's no 'you're the one'
Only hollow heart of mine
Sealed with damage done
Choice was yours, so don't be a child

Lies, accusations
I won't crawl, I'll take your pride
Otherwise you will proudly
Stay above everything
In case love is dead
Can't let myself go to waste
You wanna taste my revenge
This time I'll turn my back on you

Hey you, look what have been done to me
My feelings turns to hate
All your sickness, insanity
Makes me a mess so I won't wait

There's no 'you're the one'
Only hollow heart of mine
Sealed with damage done
Choice was yours so don't be a child
Stop messing around
Stop fucking around

There's no 'you're the one'
Only hollow heart of mine
Sealed with damage done
Choice was yours so don't be a child
Stop messing around
Stop fucking around

There's no one
Only hollow heart of mine
Sealed with damage done
Choice was yours so don't be a child
