

# Neil Diamond, Home Before Dark

Home before dark  
Before the night comes falling  
The sun going down  
And I can hear you calling  
I followed my star  
Just to be where you are  
But I couldn't get far  
In the dark

Home before dark  
Before the day deserts me  
I looked for my truth  
Knowing the truth might hurt me  
Been traveling light  
Just ahead of the night  
To be getting home right  
Before dark

I've been searching  
Can't explain  
Looked for reasons  
But what I found in me  
Know for certain  
Things are changing  
I've been changing  
Now I need to be  
Home where I can see

Home before dark  
Before the light escapes me  
To be at your side  
That's where the journey takes me  
And I've been afraid  
If I lost my way  
Then I wouldn't be saved  
Before dark

I've got stories  
I wanna tell you  
You need to hear them  
Maybe then you'll see  
That I'd found them  
Never knowing  
They were going  
On inside of me  
It's where I had to be

Home before dark  
Know you'll be waiting for me  
To be at your door  
And talking to a fool  
In the morning  
I've been so long  
In places unknown  
But I knew I'd get home  
Before dark

Cos of you  
I get home  
Before dark
