

Neil Diamond, I Care Enough

Tommy sends you flowers
Lots of pretty things
Johnny buys you ribbons for your hair
They all send you presents
And because I know
You tell me that I don't really care
But I care enough to give the very best

I'd like to buy you things like all the rest
I know how much these little things can mean
But all that I can give you are my dreams

Billy takes you driving in his brand new car
Frankie takes you to the movie show
If you think I don't care
That they love you more
Look into my eyes and you will know
That I care enough to give the very best

I'd like to buy you things like all the rest
So darling please believe the things I say
So let me love you in my special way
Because I care enough to give the very best
Because I care enough to give the very best
