

Neil Diamond, Knackelflerg

Knackelflerg, that little word
It says what you meant to me
You've been awf'lly fine

Knackelflerg, I've never heard
A word that says more, for sure
And you're only mine

The silly way you hold my klarg
When I'm alone with only you
The way you touch this foolish heart
They way you do the things you try

Knackelflerg, that tiny word
It says what you mean to me
You've been awf'lly fine

Knackelflerg, I've never heard
A word that says more, for sure
And you're only mine

I've heard a thousand times before
That love is always playing games
But when I see that boop of yours
You set my eyebrows up in flames
(La la la la la)

Knackelflerg, that tiny word
It says what you mean to me
You've been awf'lly fine

Knackelflerg, I've never heard
A word that says more, for sure
And you're only mine
One more, fella's
Knackelflerg
