

Neil Diamond, Listen

Listen

You don't even know my name
But I wear it just the same
And you know I won't be long
Will you listen to my song

Listen

Play it here with my guitar
Gonna make someone a star
You can even sing along
When you listen to my song

Hang on

Got a different kind of sound
Moving up to higher ground
Would you listen, listen, listen
Would you listen to my song

Listen

Do you hear the sound of change?
Like a distant rolling train
But it won't be distant long
Would you listen to my song

And I know

Got a bumpy road ahead
But the music makes my bed
Would you listen, listen, listen
Would you listen to my song

Listen

Listen

Listen

Listen

Say friend,

Do you know a place inside
Where a boy could spend a night
Well you know it won't be long
When they listen to my song

And I know

Got a bumpy road ahead
But the music makes my bed
Would you listen, listen, listen
Would you listen to my song

Listen

Listen

Listen

Listen

Listen to my song
