Neil Diamond, Make Believe

Make believe we're in love Let's pretend that we share eternity Make believe, come with me far away Let's just you and I Bid this world goodbye

Make believe Make my life worth living Stand by me to the end Happiness comes in giving Is it so hard to pretend?

Close your eyes, take my hand I may be a fool Still I pray that you'll Make believe

Make believe we're in love Why can't you pretend That we're more than friends Make believe, come with me far away Fill each lonely night With a love that's right

Make believe Make my live worth living Stand by me to the end Happiness comes in giving Is it so hard to pretend?

Close your eyes, dream with me I may be a fool Still I pray that you'll Make believe
