

# Neil Sedaka, Number One With A Heartache

Twinkle twinkle super star, fame and fortune took you far  
Everybody envies you, you're number one  
Night and day your records play, but ever since she went away  
Life ain't no fun

The songs you write about her, keep coming back without her  
The king of the charts is the king of broken hearts

Chorus

Number one with a heart ache  
Hear the man singing on the radio  
With every play his heart is breaking

Number one with a heart ache  
Sing your song while the whole world sings along  
Your love is gone, but the music goes on

Gee it was a long hard climb, and it took a lot of time  
Time away from her when you should've been there  
Birthdays on the telephone, Christmases she spent alone  
I wasn't fair

It took so long to make it, the girl just couldn't take it  
Now that it's made was it worth the price you paid

Number one with a heart ache  
Hear the man singing on the radio  
With every play his heart is breaking

Number one with a heart ache  
Sing your song while the whole world sings along  
Your love is gone, but the music goes on

Number one with a heart ache  
Hear the man singing on the radio  
With every play his heart is breaking

Number one with a heart ache  
Sing your song while the whole world sings along  
Your love is gone, but the music goes on
