Neil Young, Friend Of Mine

Live to ride, ride my dream machine Good conditions sometime are extreme Running from the daily grind He was, he was a friend of mine Gonna take a long, long time But the stain will fade away Running from the daily grind He was, he was a friend of mine.

Live to ride, ride in the lonesome wind Cross the line, you can't come back again Never let a dream machine Gather dust in your garage Gonna take a long, long time But the stain will fade away Running from the daily grind He was, he was a friend of mine.

Gonna take a long, long time But the stain will fade away Running from the daily grind He was, he was a friend of mine.

Live to ride, ride my dream machine.
