Neil Young, Modern World

We live in a modern world With communication between boy and girl Oh Yeah But under the stars above We just don't recognise the power of love is free

We gotta change We gotta change how we feel We gotta change We gotta change We gotta change

When anger has closed the door My eyes go blind and I can see inside I hurt you and you hurt me With crimes of love in the first degree Oh yeah

We gotta change We gotta change how we feel We gotta change We gotta change We gotta change

We live in a modern world
With communication
between boy and girl
oh yeah
but when there are clouds above
We just don't recognise
the power of love is free

We gotta change We gotta change how we feel We gotta change We gotta change We gotta change
