## Neil Young, Name Of Love

You who rule upon the land, You hold the future in your hand, When you take your people down the road, Before another bomb explodes. Can you do it in the name of love? Can you do it in the name of love?

And when you sail upon the sea This one's for you, this one's for me. Before another missile flies You who soar into the sky Can you do it in the name of love? Can you do it in the name of love?

And so I shout it around the world To every boy and every girl, Yeah, I shout it around the world To every boy and every girl, Can you do it in the name of love? Can you do it in the name of love?

Can you do it in the name of love?
