

Neil Young, Shining Light

Shining light
You always show me
You always guide me
I don't know where I'm going
Show me now
I'm waiting to see
I'm waiting to feel
Around me again

Show me your love
Show me your kind love
Share your compassion
Let me feel mine
Share your light
All around
Now that you've found me
And I've found you

Shining light
What will you show me now?
What can bring to you
To stand in your glory?
Shining light
When will you show your love?
When can I see you
And stand in your glory?

Shed your light
Show your love
Shed your light
Show your love
Shed your light
Show your love

Shining light
What will you show me now?
What can I bring to you
To stand in your glory?
Shining light
When will you show your love?
When can I see you
To stand in your glory?

Shed your light
Show your love
Shed your light
Show your love
Shed your light
Show your love
Shed your light
Show your love
Shed your light
Show your love
Shed your light
Shed your light
