

# Neko Case, Look For Me (I'll Be Around)

When you tire of all the bright lights  
Haste that's killing and you're willing to stay home nights  
When your feet are back on the solid ground  
Look for me, I'll be around

When the new crowd starts to bore you  
Just remember there is someone to adore you  
When you're weary of nights out on the town  
Look for me, I'll be around

May not seem exciting the way those others do  
I'm emotion, my devotion  
You will need some day as I need you

When the kicks go that it brings you  
You will hanker for an anchor just to cling to  
When you've lived it up till it's got you down  
Look for me, look for me  
Look for me, I'll be around
