

Neko Case, Magpie To The Morning

Magpie comes a calling drops a marble from the sky
Tin roof sounds alarming wake up child
Let this be a warning says the magpie to the morning
Don't let this fading summer pass you by
Don't let this fading summer pass you by
Black and tells so high
The vulture wheels and dives
Something on the thermals
You just change
Smelled your boring apex
Rotting on the train tracks
He laughed under his breath because you thought that you could outrun sorrow
Take your own advice
Thunder and lightening gets you rain
Runnin airtight mission a crystal expedition find me down under the bottom of the drain
Dive into the bottom of the drain
Hear your (?)
In the middle of the night
All of his songs are stolen so he hides
Stole them out from the whippoorwill
Screaming common lies
He sings them for you special
He knows you're afraid of the dark come on sorrow take your own advice
Hide in the red
Turn out the light stars this night in the sky are ringing out you can almost hear them singing
Close your eyes now kid
Close your eyes now kid
Morning's too far lit
They are waiting
Waiting
They are waiting
