

Nellie McKay, Down Low

I don't say nothing (x4)

It isn't bad to know your limitations
That we know can come to good
But if you had to know your situation
I see no reason you should
You don't have to know

they say, if you're in the clear, it's on the down low
Don't you find it
Anything you hear, it's on the down low
Don't you mind it
Hold you head up high
That will see you through
Dry your little eyes
Don't mess up your life by seeking truth

It isn't hard to get an education
Know you want to come to good
But you can hardly bet on imitation
I see no reason you should
you don't have to know

I say, if you're in the clear, it's on the down low
You won't find it
Anything you hear, it's on the down low
Don't you mind it
Walk right down the stairs

That will see you through
Drive the thoroughfare
Don't mess up your life by seeking truth

You, you should let the flowers of the sun shine
Chinga chinga chinga chinga
Chinga chinga chinga chinga
op ole!
I spend all my idle hours biding time
I know it'll end someday

It isn't bad to diss your situation
That we know can come to good
But you'd be mad to miss your coronation
And I see no reason you should
You don't have to know

I say if you're in the clear, it's on the down low
Don't you find it
Anything you hear, it's on the down low
Don't you mind it
Hold your head up high that will see you through
Dry your little eyes, don't mess up your life
You're overreaching
Trying to find to seek the truth

I don't say nothing x8
