

# Nellie McKay, Get Some Food In The House

chorus:

we're gonna get some food in the house tonight  
get some food in the house tonight  
we're gonna get some food in the house tonight  
get some food in the house

for to starve is to hate is to kill is to sin  
better love's on your plate get your fill and dig in

chorus

hell is strife and confusion be frightened or fine  
well if life's an illusion we might as well dine

chorus

we're gonna get some food on the table tonight  
get some food on the table tonight  
we're gonna get some food on the table tonight  
get some food in the house

well now we're feelin full in the house tonight  
feelin full in the house tonight  
oh yeah we're feelin full in the house tonight  
feelin full in the house

we're gonna go to sleep in the house tonight  
go to sleep in the house tonight  
we're gonna go to sleep in the house tonight  
go to sleep in the house
