## Nemesea, Broken

Every memory Every angry thought of you Makes me certain What you took away from me

Every moment
Every happy thought you stole
I've not forgotten
What you did to me

Every harsh word Every cruel trick that you played Makes me wonder What I'll do to you

Cause by breaking me You have made a stronger person You will see!

Today is the day to take a hold This is the truth that I have found For those who tore my life apart Are gonna find what comes around

Every dark day
Every painful second spent
Made me discover
What to do for me

Cause by breaking me You have made a stronger person You will see!

Today is the day to take a hold This is the truth that I have found For those who tore my life apart Are gonna find what comes around

Diamonds only shine when held in the light You could never treasure me Now I've made my choice

Every small step Every link I have to break Leads me further Away from you

Today is the day to take a hold This is the truth that I have found For those who tore my life apart Are gonna find what comes around
