

# Nemesis 66, Just Friends

I took your pictures off the wall  
To try and ease the pain  
And there's nothing left  
but the things you did, and the words you made me say  
Hangin out all day, &quot;forever&quot; we'd always say (stay)  
In each others hearts, but now you're gone, and the pain won't go away

So I'm leaving today  
I'm never coming back again  
I hope he understands the pain you'll put him through  
The way you always do...

I thought about my days  
And how nothing went my way  
I think of yesterday  
And tomorrow all that's left will be my name  
I told you not to cry  
&quot;Forever&quot; was not a lie. It was proved in the way I tried  
But my heart is gone, and we never said goodbye

So I'm leaving today  
I'm never coming back again  
I hope he understand the pain you'll put him through  
The way you always do...

So I'm leaving today  
I'm never coming back again  
I hope he understand the pain you'll put him through  
The way you always do...  
The way you always do...  
The way you always do...  
While I sit around...  
The way you always do...

It's in the way we say goodbye
