

Nemesis Army, Your Emptiness

See it coming
Heed The signs
I can't stop this bastard life
I am nothing in your eyes
Feed the cancer in your mind
Lies
There must be something more than this
Ask nothing
But what you truly want
Your emptiness
I'm nothing but still it's me you want
Your emptiness
Keep it open
Shedding skin
You are so much more than this
Bruised and broken
Shattered sin
Suck it up I cannot win
Lies
There must be something more than this

[Chorus]

Lies
Fight lies right?
Yeah right
