Network, X-Ray Hamburger

(German talking throughout)

As they stare into our flesh At the end of what comes next Peering deep into the light X-ray hamburgers tonight

Evolution of a race In outer space

Running tests upon our scars Bits and pieces of our hearts Burnt so hot beneath the light X-ray hamburgers tonight

Evolution of a race

In outer space

You're the change that had to come As we stare into the sun
Pane of glass we can see through
X-ray hamburger is you
It's you
X-ray hamburger to go
It's you
X-ray hamburger to go
