

Neverstore, Reject All Along

A stranger I've become
Yet the street seem so familiar
I don't bother holding on
To the place that I once cared about
To the street I've wandered late at night
Everytime I'm coming home
I feel like I don't belong
Welcome to a place in fucking nowhere
Gotta leave no way I fucking stay here
Do you care? I'm feeling fucking useless
I'm breaking up with you
Remember the time when
We got along, it's over
Those days are gone
Rejected all along
I've heard that I am strange
Accused for being different
But I never stand in line
In a place like this a minority
As it will be in eternity
Use to call this place my home
I feel like I don't belong
Welcome to a place in fucking nowhere
Gotta leave no way I fucking stay here
Do you care? I'm feeling fucking useless
I'm breaking up with you
Remember the time when
We got along, it's over
Those days are gone
Rejected all along (x3)
