

Neverstore, Stop Waiting

I don't know if you should go on like this
Wake up move on, stop pretend you don't exist
I know you've been down and out of your mind
Can't help you fix yourself but i hope you will try
Don't give in and don't give up
In the end life's all that you've got

Stop waiting, start living
Forget about the past
'Cause it's never coming back
Stop waiting start living
Forget about the past
'Cause it's never coming back

So please don't look back
On the things you've done
Don't hold on, carry on
'Cause it's already gone
Don't hold on...

Stop waiting, start living
Forget about the past
'Cause it's never coming back
Stop waiting start living
Forget about the past
'Cause it's never coming back

Stop waiting, start living (forget about the past, cause it's never coming back)

Stop waiting start living
Forget about the past
'Cause it's never coming back
Stop waiting start living
Forget about the past
'Cause it's never coming back
