

New Buffalo, Just A Little Time

Just a little time

(About Last Night EP)

Just a little time

By yourself

I hate to see you sad

I know the drive will do you good

And while you're outside

I hope you clear your mind

Driving down the road to come home to find

Giving all is great

Stars on fire

Catch you while you sleep

Tearing out the pages

Just to keep

Me alive

Warming to your charm

Changes will surround us

It's the carnival of seasons

I decided you should be here with me now

I'm not leaving

You're what keeps me

All inspired

Have I told you

In the room

I played guitar

I wrote about you

All night long and

I'm not leaving

You're what keeps me

All inspired

Have I told you

In the room

I played guitar

I wrote about you

All night long and

I'm not leaving

You're what keeps me

All inspired

Have I told you
