

# New Eden, Demons Of Earth

Heed these words of Satan's breed  
They walk the earth Humanity's Evil seed

Casey waits while Manson leads  
Ramirez hates while Dalmer feeds

Tonight a freedom with you a season  
To kill a reason your blood is my thrill

Zodiac and Forty-Four  
They kill for fun, there is no cure

Tonight a freedom with you a season  
To kill a reason your blood is my thrill

Oh bleed for me  
I feel tonight, I kill tonight  
I stalk the night, I walk the night

Oh die for me  
I need tonight, I am the night

Please stay with me I'll relieve your pain  
Please don't you run I'm not insane

I need to take your life tonight  
It makes me feel that I'm all right  
I need to take a life tonight  
I feel I'm born to kill tonight

Now we see just what they've done  
Can we believe till we're the one

Tonight a freedom with you a season  
To kill a reason your blood is my thrill
