

New Edition, Come Home With Me

[Verse 1]

I'm standing here all alone this nights about to end
(I'm looking for somebody)
To wil' out with me sexually
Come with me baby
Girl it's been long
Close the door
Shed your clothes for me nice and slow
Will you dance for me(dance for me)
Freak for me(freak for me)
Give it to me
All I wanna know...

[Chorus]

Who's gonna come home with me tonight(will you come home with me tonight)
Who's gonna lay her body next to mine(lay your body down next to mine)
Who's gonna come home with me tonight(aww baby)
Tell me who baby(tell me baby yeah yeah)
I just wanna know who

[Verse 2]

Here's the part where I can make your body start to tremble(no no no no no)
Girl your body's tight
That's why I decide to choose you tonight(mmm)
Jump in my bed so I can take you undercover
Making love room to room until the sun's up
Then I'll let you fall asleep naked on me(naked on me)
This is our bedroom scene(baby baby baby baby baby baby baby)

[Chorus]

(Get ready to take my love tonight)(alright)
See cause I'm gonna take you all the way donw tonight
(Get ready for what's in me through love)
See I want to wrap my arms around you tonight
And I want you to feel my love(get ready to taste my love every drop)
Cause I run deep so deep so deep
Inside your love cause I got one question for you baby(ahhhhhhhhhh)
If you're ready to feel it and taste it
Come on and take it

[Chorus til end]
