

New Edition, Oh, Yeah, It Feels So Good

This is for the hundred dollar fillers
For my butter pican dicker
And for my chocolate playboy bunnies
Feels so bad

Chorus:

Oh yeah, it feels so bad
To be back where we rat
Oh yeah, it feels so good
This is where we started from

Everybody let's take a ride
Everybody just come inside
On a journey
Let's go back in time
I'll keep the feeling right

Everybody it's time to play
Come on everybody let yo discman sway
Forget all the other sounds
'Cause New Edition is what's going down

Now the time has come
To return as one
And it's never been better
And now, I never thought this day would come
And it feels so good to me
To be back where we belong

Chorus:

Oh yeah, it feels so good
To be back where we belong (back where we belong)
Oh yeah, it feels so good
This is where we started from
(This is where we started from)

Been too long it's time to get in the mood
Something to make you move
A li'l something that's in this groove
It'll be alright
Nobody's humpin' around tonight
And baby your mama need not to get it
Cause N.E. is damn sho nuff comin' with it

Rap:

Fancy cars 'n' everything
Silk, slips and trips to Rio
Playin' C-low with the gamblers
Lear jets and different sets
Placin' bets Big Willie Style
I gots the frequent flier miles
I'm goin' places
Atlantic City to Vegas
Leaving no traces
Sippin' bubble with familiar faces
Me and my crew, long overdue
Jimmy and Terry
With the N to the E
The money making recipe

Chorus: (2X)

Oh yeah, it feels so good
To be back where we belong
Oh yeah, it feels so good
This is where we started from
(repeat)

Rap:

We're comin'
We're comin' back from a long hiatus
It's the greatest
The latest craze
To hit the stages
Be amazing
Sold out nights
Spot lights, and flights for tickets
Dips with picket signs
Standng in line
For hours and days
Gettin' week
Fiendin' for my peak
of the N E mystic
Know what I mean
As we play up on the scene
Big money players
coming with the green
J.G.

Bridge:

Now the time is come
And we have just begun
We're comin' loud and clear
N.E.'s is back and in your ear
Ain't nothing gonna stop us now
We've gotta stay together somehow
We're back where we belong
And it feels so.....
And it feels so good

Chorus: (2X and fade)

Oh yeah, it feel so good
To be back where we belong
Oh yeah, it feels so good
This is where we started from
