

New Edition, One More Day

[Spoken Ralph:]

Yeah, I can't deny it
On the inside I'm slowly dyin'
But with a little love I'll be alright
Just give me one more day
I promise I'll make it up to you
I never meant to hurt you, baby
Just trust me, listen

[Ricky:]

I can't deny it
That you got me cryin' you see
And I'm, I'm slowly dyin'
So we can't give up tryin' to be

With a little love it will be all right
With a little kiss let me hold you tight
With a little peace it could be fine
And baby don't you leave me tonight

[Chorus:]

I just need one more day
And I won't make you cry
Darlin' believe
And baby don't say good bye
Look in my heart
And I won't tell you no lies
Just one more day
And loving me will be fine

[Ricky:]

People tell me
That true love is blind
But I'm trying to prove that
True love is kind
All that I want
Is to make things right
So won't you be my baby tonight

[Chorus:]

I just need one more day
And I won't make you cry
Darlin' believe
And baby don't say good bye
Look in my heart
And I won't tell you no lies
Just one more day
And loving me will be fine

[Bridge:]

One more day
One more day
One more day
One more day

With a little love it will be all right
With a little kiss let me hold you tight
With a little peace it could be so fine
And baby don't you leave me tonight
I just need one more day

Just one more day
Just one more day
Just one more day

One more day
[Until fade]
