

New Edition, Try Again

Baby we can try again
If you're ready
Baby we can take it slow
If you're ready

I've been around, you know the things
I used to do, uh huh
Girl I never thought
Never thought I'd find someone like you, baby
Girl I need you in my life

Baby we can try again
If you're ready
Baby we can take it slow
If you're ready

If you were mine,
All the things of yesterday are no more
They're all gone
And I can say with a love like yours
What more would I need
Girl I need you in my life

Baby we can try again
If you're ready
Baby we can take it slow
If you're ready

Oh I'm waiting for someone like you
To love me, to hold me (hold me)
To care for me
Like no other

Baby we can try again
If you're ready
Baby we can take it slow
If you're ready
