

New Kids On The Block, Since You Walked Into M

Time after time
Everything that I've tried
Can't do nothing at all
Everywhere I walk, nowhere to turn
I was losing my way
Crying every day
I was givin' up and you walked into my life
I never knew anything about love
In the world that I know
Lovers come and go
Nobody anywhere, talk like you do
Saying dreams can come true
Then you made me feel just like a man should feel

[Chorus:]

Ever since you walked into my life
All at once, I feel so strong inside
Anything you ask of me
I'll do it faithfully
Since you walked into my life (into my life)
Yeah, girl

You're the only one for me

Oh, girl

Oh baby (oh baby)

Now I've got a reason to live

And oh darling

How I love the sweet love you give (oh baby)

And I wanna spend my life with you

Wanna make your dreams come true

Every step you take I wanna be with you

[Chorus]

I am learning that the touch of love is magic

Feel it once, and you will see your world so differently

Nothing stays the way that it was

Everything begins again

You're not who you've always been

[Chorus]

Ever since you came into my life

I wanna be with you, girl

Since you walked into

Since you walked into my life

Girl, nothing's ever felt

Nothing's ever felt so right

Baby, I wanna be with you

Since you walked into

Since you walked into my life

I wanna be with you

[Repeat and fade]
