## New Kids On The Block, Stare At You

I still get lost, caught in a daze, Tongue tied, just like the very first day...

I saw you and I'm so amazed Cause the look that got me twisted still hasn't changed

Your sexy eyes never lie, Baby, I lose myself (when they open) Girl, forget about goin' out Baby, I'd rather not (So, I'm hoping)

Chorus: I could just stare at you forever (Oh, baby) I could be here with you doing whatever (My lady) It's not the way you look that brings me to my knees, It's the way you look at me I could just stare at you forever If forever you were staring at me

What do you see? I can't figure it out You're talking to my heart withought making a sound I can't lose when I'm caught in your eyes (I feel like superman) Got me up in the sky

Your sexy eyes never lie Baby, I lose my ground... (You're so gorgeous, oh...) Girl, forget about goin' out Baby, I want you now...

Chorus

Baby, keep the lights on I'm gonna stare at you all night long And we'll keep rocking 'til the sun shines Waiting 'till the moonlight to do it again
