

# New Kids On The Block, This One's For The Children

This is a very serious message so all of you please listen.  
There are some people living in this world  
They have no food to eat  
They have no place to go  
But we all are God's children  
We've got to learn to love one another  
Just remember, they could be us  
Remember, we all are brothers

I'm not trying to darken up your day  
But help others in need  
And show them there's a better way

This one's for the children  
The children of the world  
This one's for the children  
May God keep them in His throne

Many people are happy  
And many people are sad  
Some people have many things  
That others can only wish they had  
So for the sake of the children  
Show them love's the only way to go  
'Cause they are tomorrow and people, they've got to know

I'm not trying to darken up your day  
But help others in need  
And show them there's a better way

This one's for the children  
The children of the world  
This one's for the children  
May God keep them in His throne

This one's for the children  
The children of the world  
This one's for the children  
May God keep them in His throne
