

New Musik, The Planet Doesn't Mind

That's right
When the planet isn't looking
It gets taken by surprise
That's right
What on earth is really happening
Is for you to realise
If the planet doesn't mind
It must be alright
And if the planet doesn't care
It must be all square
When you live within the scenery
When you're hidden in the crowd
That's right
Doesn't matter what it seems to be
Now that anything's allowed
If the planet doesn't mind
It must be alright
And if the planet doesn't care
It must be all square
That's right
And will the planet ever listen
It's a hang up in the sky
That's right
And what appears to be the problem
Isn't ever recognised
If the planet doesn't mind
It must be alright
And if the planet doesn't care
It must be all square
That's right
You say keep it to yourself now
As it happens let it be
That's right
Now you step into the next phase
Of what the planet doesn't see
If the planet doesn't mind
It must be alright
And if the planet doesn't care
It must be all square
That's right
