

New Musik, The Safe Side

Someone said the magic words today
What's going on is going wrong again
So how does it feel to be
On the safe side
I fear the walls are closing in around
I'm in the air and falling to the ground
So tell me how does it feel to be
On the safe side
On the safe side
They tell me this is sound security
With just the hint of danger that we need
So tell me how does it feel to be
On the safe side
