

# New Order, Fast Synth

Just another day in the week  
Waiting for an opportunity  
To step in front of me  
Maybe I'm losing my mind  
Searching for another place  
In another time

Chorus 1:

Real love can't be bought  
It is wild and it can't be caught  
Real love can't be sown  
It's another color than gold

Chorus 2:

(I need your love)  
I just wanna buy it  
(I need your love)  
Will you help me find it?  
(I want your love)  
How can you deny it?  
(I need your love)  
You've just gotta try it  
(I want you now)  
's something that you've gotta know  
(I need you now)  
My love for you I wanna show  
(I want your love)  
I'm telling you I that I belong  
(I need your love)  
You and me just can't go wrong

Standing on top of the world  
Thinking of the joy you bring  
When you do that thing to me  
You sure know a lot for a girl  
You could bring the good times back  
Get me on the tracks

Chorus 1

Chorus 2

(I need your love)  
(I need your love)  
(I need your love)  
(I need your love)

Chorus 2

You and me just can't go wrong  
You and me just can't go wrong  
You and me just can't go wrong  
You and me just can't go wrong
