

# New Order, Spooky

Once in a while I need a friend  
So why won't you let me recover  
It's just a moment in your life  
But sometimes we divide each other

Maybe we could find a time  
Eliminate what's on your mind  
We'd do everything we could  
Our presence in the neighbourhood

We could break every rule  
Anytime we wanted to  
Don't be afraid to live this way  
Lets defend the things we say

I want to be up in the air  
I could be anywhere  
Tell me I'm wrong, at least till tomorrow  
Set me free and I will follow

Maybe we could find a time  
To elevate what's on your mind  
Recreate for me and you  
A master plan just for two

We could break every rule  
Anytime we wanted to  
Don't be afraid to live this way  
Lets defend the things we say

Elevate what's on your mind  
Eliminate what's on your mind
