

New Radicals, Gotta Stay High

Two months of fun
Two years of pain
Add it up
And get a life of rain
Need to scream
But too ashamed
It's gonna rain it's gonna rain
You wanna go you wanna stay you wanna
You really blew my world
I wanna live and there's only one way
I don't wanna die anymore
I want to live it up
I don't want this high anymore
But i can't give it up
I won't live a lie anymore
I need to give you up
Won't you save me
Two months of sun
A life of rain
Add it up
I'm on my own again
Need to scream
I'm so filled with rage
It's gonna rain it's gonna rain
You wanna go You wanna stay you wanna
You really screwed my world
I gotta live but you stand in the way
I'm pullin out of now "UHH"
I don't wanna die anymore
I want to live it up
I don't want this high anymore
But i can't give it up
I won't live a lie anymore
I need to give you up
And "OH OH BABY" did you think that i was strong?
Well "OH OH BABY" can't ya see that you were wrong
&"OH OH BABY" did you think that i was strong?
