

# Newsboys, Love You Tomorrow

We've walked along a sandy beach  
I've talked You've listened  
Sometimes we laughed  
Sometimes we just enjoyed each other  
I don't know why You love me  
I just know it's there  
Father, Father I have longed to know Your way

Bridge  
For You have seen me  
With emptiness behind my eyes  
And You will look for me  
And long to hear me say

Chorus  
Cause I'll love You tomorrow  
More than today  
A love that grows stronger  
In a very special way

And when the sands grew deep  
You carried me to higher ground  
And we'd rejoice and share the Love  
That we have deep inside  
You won't leave me, I won't lose You  
For our love is never blind  
For there is nothing in this world  
That can give me what You can

- Bridge -

- Chorus -
