

# Newsong, Life In My Day

My cell phone's ringing and I'm running late  
Morning traffic's got me  
Time is ticking away  
A few more hours is all that I need  
Seems like there is just not enough days in a week

But then it hits me  
Time is not the answer  
You've given me all the time in the world  
All that I need is

Chorus  
A little more life in my day  
A little more of your life  
A little more faith  
A little more life in my day  
A little more of your light  
To show me the way  
If I'm gonna be in this world but not be of it  
Lord, I need more of you  
In all that I do  
Put a little more life in my day

Sometimes I guess I get lost in the race  
Trying to make a deadline just to keep the pace  
I can't help feeling I'm always behind  
So much that I can do if I could just find the time

But then it hits me  
Time is not the answer  
You've given me all the time in the world  
All that I need is

Chorus  
Lord, don't let be in such a hurry  
Trying to live my life  
That I miss you in it  
Help me to take the time to see  
All that I need, yeah  
A little more life in my day

Chorus (x2)
