

# Newton Faulkner, I Need Something

I need something to believe in  
'Cause I don't believe in myself  
And I'm sick and tired of getting nowhere  
Guess it'll all work out

And I don't mind anymore  
And I don't mind anymore

And I need someone to put my trust in  
'Cause I ain't trusting myself  
And I'm scared of failure  
So scared of success  
I guess it'll all work out

And I don't mind anymore  
And I don't mind anymore

I need something to believe in  
'Cause I don't believe in myself  
And I'm sick and tired of getting nowhere  
I guess it'll all work out

And I don't mind anymore  
And I don't mind anymore
