

Nick Black, It's Over

Obsession, depression,
This program is in session.
If I tell you what will you say?
The lesson, in question,
Meaningless conversation.
They say it, no way I can forget this feeling...
You'll see my face in a magazine...
Will you turn the page not to look at me?
You'll hear my name in the social scene...
Will you turn your face when I'm on T.V.?
And now they're saying "When will you see?"
It's over.
Devotion, rough ocean,
This sequence is in motion.
I'm giving myself away...
Reflection, rejection,
You're in the nosebleed section.
They waited, I hated, images for selling...
You'll see my face in a magazine...
Will you turn the page not to look at me?
You'll hear my name in the social scene...
Will you turn your face when I'm on T.V.?
And now they're saying "When will you see?"
It's over.
When will you see it was such a big mistake?
Will you throw it all away?
You read the paper the headlines say,
"Will he take her back, will he turn away?"
You'll see my face in a magazine...
Will you turn the page not to look at me?
You'll hear my name in the social scene...
Will you turn your face when I'm on T.V.?
And now they're saying "When will you see?"
It's over.
