## Nick Cave, Right Out Of Your Hand

Please forgive me If I appear unkind But any fool can tell you It's all in your mind

Down in the meadow The old lion stirs Puts his hand 'cross his mouth He has no use for words

Poor little girl With your handful of snow Poor little girl Had no way to know

And you've got me eating You've got me eating You've got me eating Right out of your hand

I mean you no harm When I tell you you're blind Give a sucker an even break He'll lose it all, every time

The airborne starlings circle Over the frozen fields The hollyhocks hang harmlessly And the old lion yields

And you've got me eating You've got me eating You've got me eating Right out of your hand
