## Footsteps

You're old enough to know  
Young enough to find out  
Dreamer's education  
Radio made and TV raised  
But will you live up to expectation

Your father's shirt don't fit you  
and the future's got a claim on me  
I got a license to run my race  
I need space to breath  
Cause I got a dream

I'll follow (following in my footsteps)  
The tracks of my soul  
I'll follow (following in my footsteps)  
The tracks of my soul

He wear that sidewalk scar  
Somewhere in a backseat  
I heard the fascination  
Got a pocketful of promises I'm going to test  
Once you catch a dream can you settle for less

No has to tell you no  
Like a ghost writer in you soul  
You know what it's like to be young  
You got your reasons there's a dream, a road  
I'll follow

I got a dream I'll follow  
The tracks of my soul  
I'll follow the tracks of my soul
