

Nick Kamen, We'll Never Lose What We Have Found

Hello
I have to go
I told you why
That's all you need to know
Excuse me
When I said
I lost my head
A long long time ago
Your names
Miss understood
Yeah you're oh so good and so misleading
Inside your crystal eyes
You can't disguise the way your feeling
You know I'm easy
I'll never let you down
You always please me
We'll never lose what we have found
Four lawyers told me so
Said no, no, no
You can't pull that again
Excuse me if I try
I can't deny
I love to do my thing
You know I'm easy
I'll never let you down
You always please me
We'll never lose what we have found
We'll never lose what we have found
(We'll never lose it)
We'll never lose what we have found
(We'll never lose it)
We'll never lose what we have found
Goodbye
Why don't you stay?
It's not too late for you to obey me
Don't turn your back on me
Oh baby can't you see?
I was only teasing
You know I'm easy
I'll never let you down
You always please me
We'll never lose it
You know I'm easy
I'll never let you down
Don't ever leave me
We'll never lose what we have found
We'll never lose what we have found
(We'll never lose it)
We'll never lose it
We'll never lose what we have found
We'll never lose it
