

Nick Lachey, I Will Still Love You

oooooo (repeat 2x)
ohh yehh

(Verse 1)

Love i see forever in your eyes
I can see heaven in your smile
And when i hold you close
I dont wanna let go
Because deep in my soul i know
Girl..
That you are the only light i see
Your love means everything to me
I know that we will never part
Because you'll always be near
Here in my heart ...

(Chorus)

If the sun should refuse to rise
And the moon doesnt hang in the night
And the tides wont change
Seasons rearranged
When the world is through
I will still love you

(Oh yehh still love you baby)

(Verse 2)

N girl your like an angel from above
Sent here to shower me with your love
Hold me beneath your wings
Tell me all of those things
All the hopes and the dreams
We can share 'cause
Ill be your shelter from the storm
ill be the fire that keeps you warm
Ill be you light in the dark 'cause
You'll always be here in my heart
O girll ...

(Chorus)

If the sun should refuse to rise
And the moon doesnt hang in the night
And the tides wont change
Seasons rearranged
When the world is through
I will still love you

If anything could last forever
Its what i feel for you
You touch ma heart in ways
That words could never say
Thats why ill always love you...

(Chorus 2x)

If the sun should refuse to rise
And the moon doesnt hang in the night
And the tides wont change
Seasons rearranged
When the world is through
I will still love you

Yes i will
Love you still baby
Girl beleive

Your all i need
I will still love you
